REFRACTION POLICY & ACKNOWLEDGMENT OF RECEIPT

One of the most important parts of your eye exam today may be a refraction. That is the part of the exam by which we determine whether you can be helped in any way by a new glasses prescription. This test is also how we determine the best possible visual acuity and function of your eye, which is essential medical information for us to have as we assess your eyes and look for problems. Our office fee for refraction is **\$50.00. You will only be charged if you wish to obtain a copy of your eyeglass prescription.** This fee is collected at the time of service in addition to any co-payment or deductible your plan may require.

It is **NOT** a covered service by Medicare and many other insurance plans. These plans consider refraction a "vision" service not a "medical" service.

An exam requested for the sole purpose of having a refraction will be \$80.00. This covers the cost of the refraction and the physician's time. The exam will not be filed with insurance, as the exam is considered "vision" and not "medical".

I have read the above information and understand that the refraction is a non-covered service. I accept full financial responsibility for the cost of service and understand it is due at the time of service. I understand that any co-payment, co-insurance or deductible I have are separate from and not included in the refraction fee.
